

COMPIRE

**COMPANY
PRESENTATION**

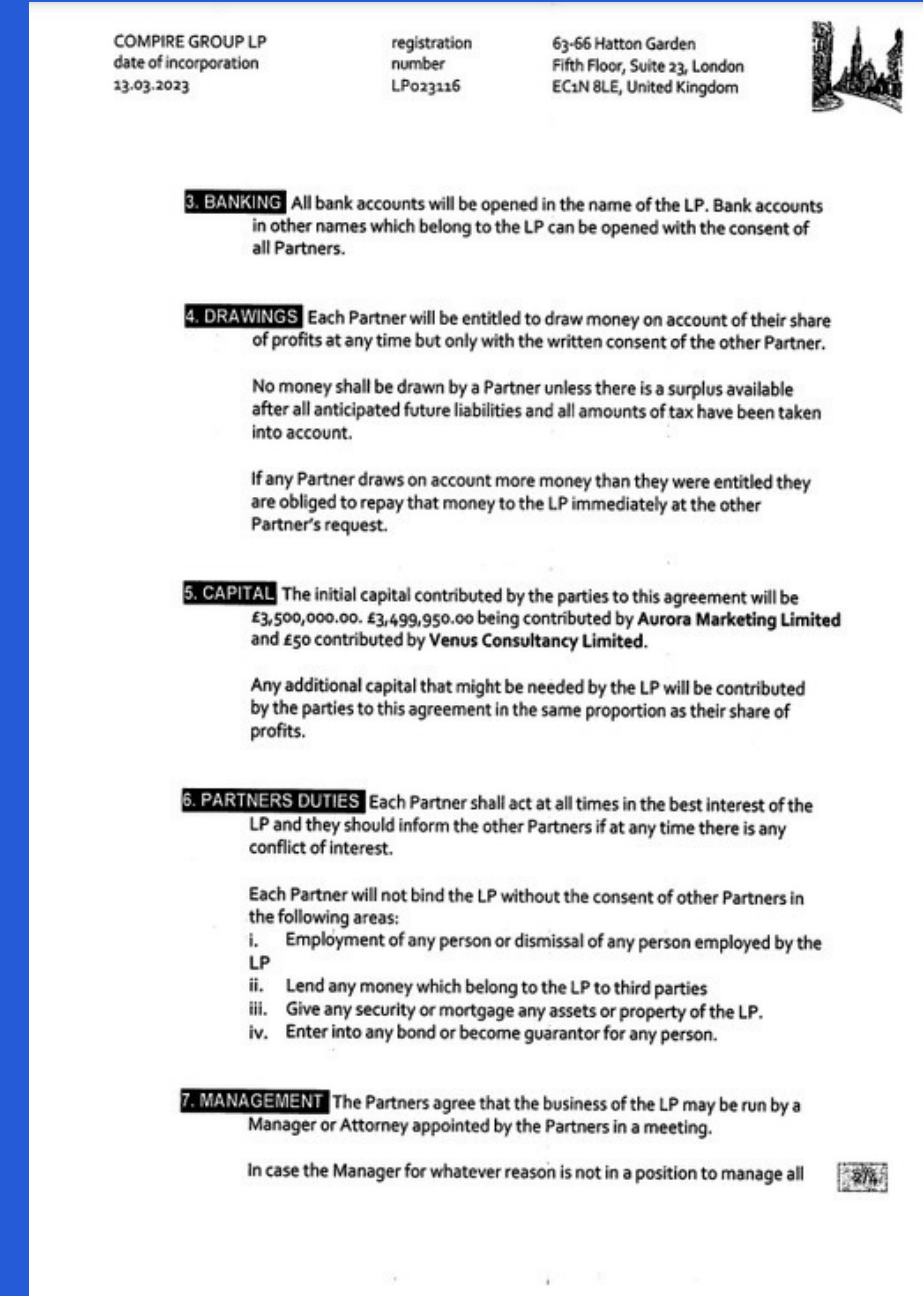

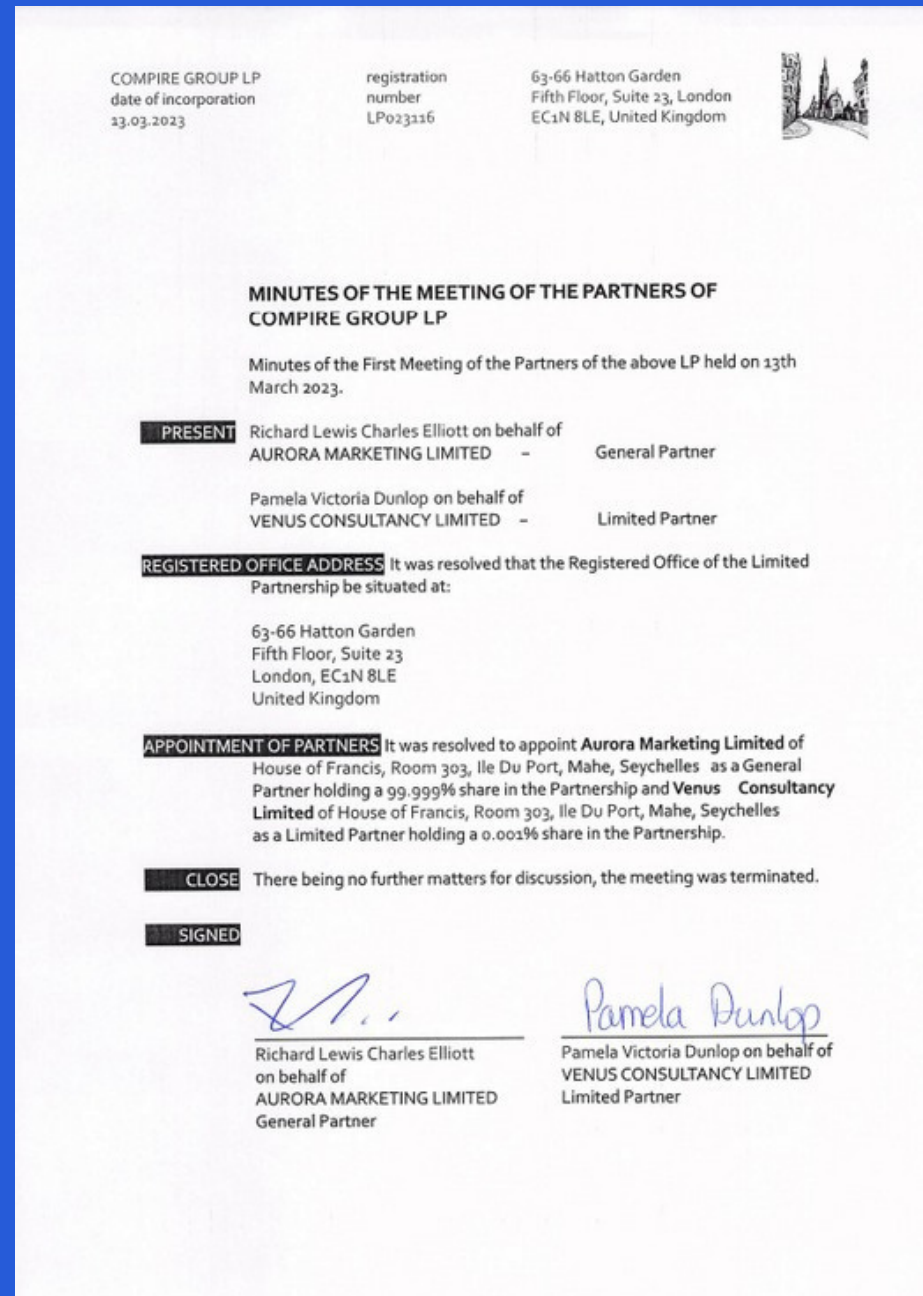

www.compire-group.com

Welcome

We are Compire, a leader in cryptocurrency mining and trading. We use advanced technology and expertise to make money for our clients. We mine cryptocurrencies and participate in trading to ensure maximum profits.

Every day we strive for new heights in the world of financial technology. Our team of professionals is constantly searching for the most profitable opportunities in the cryptocurrency market and then managing them efficiently to bring maximum profit to our clients.

Legality Safety

We are confident that business transparency is an indicator of the preparedness and reliability of any company. Sustainability is a key component of Compire in the development and approval of a financial portfolio. So the registration documents of the company are in the public domain for everyone to learn

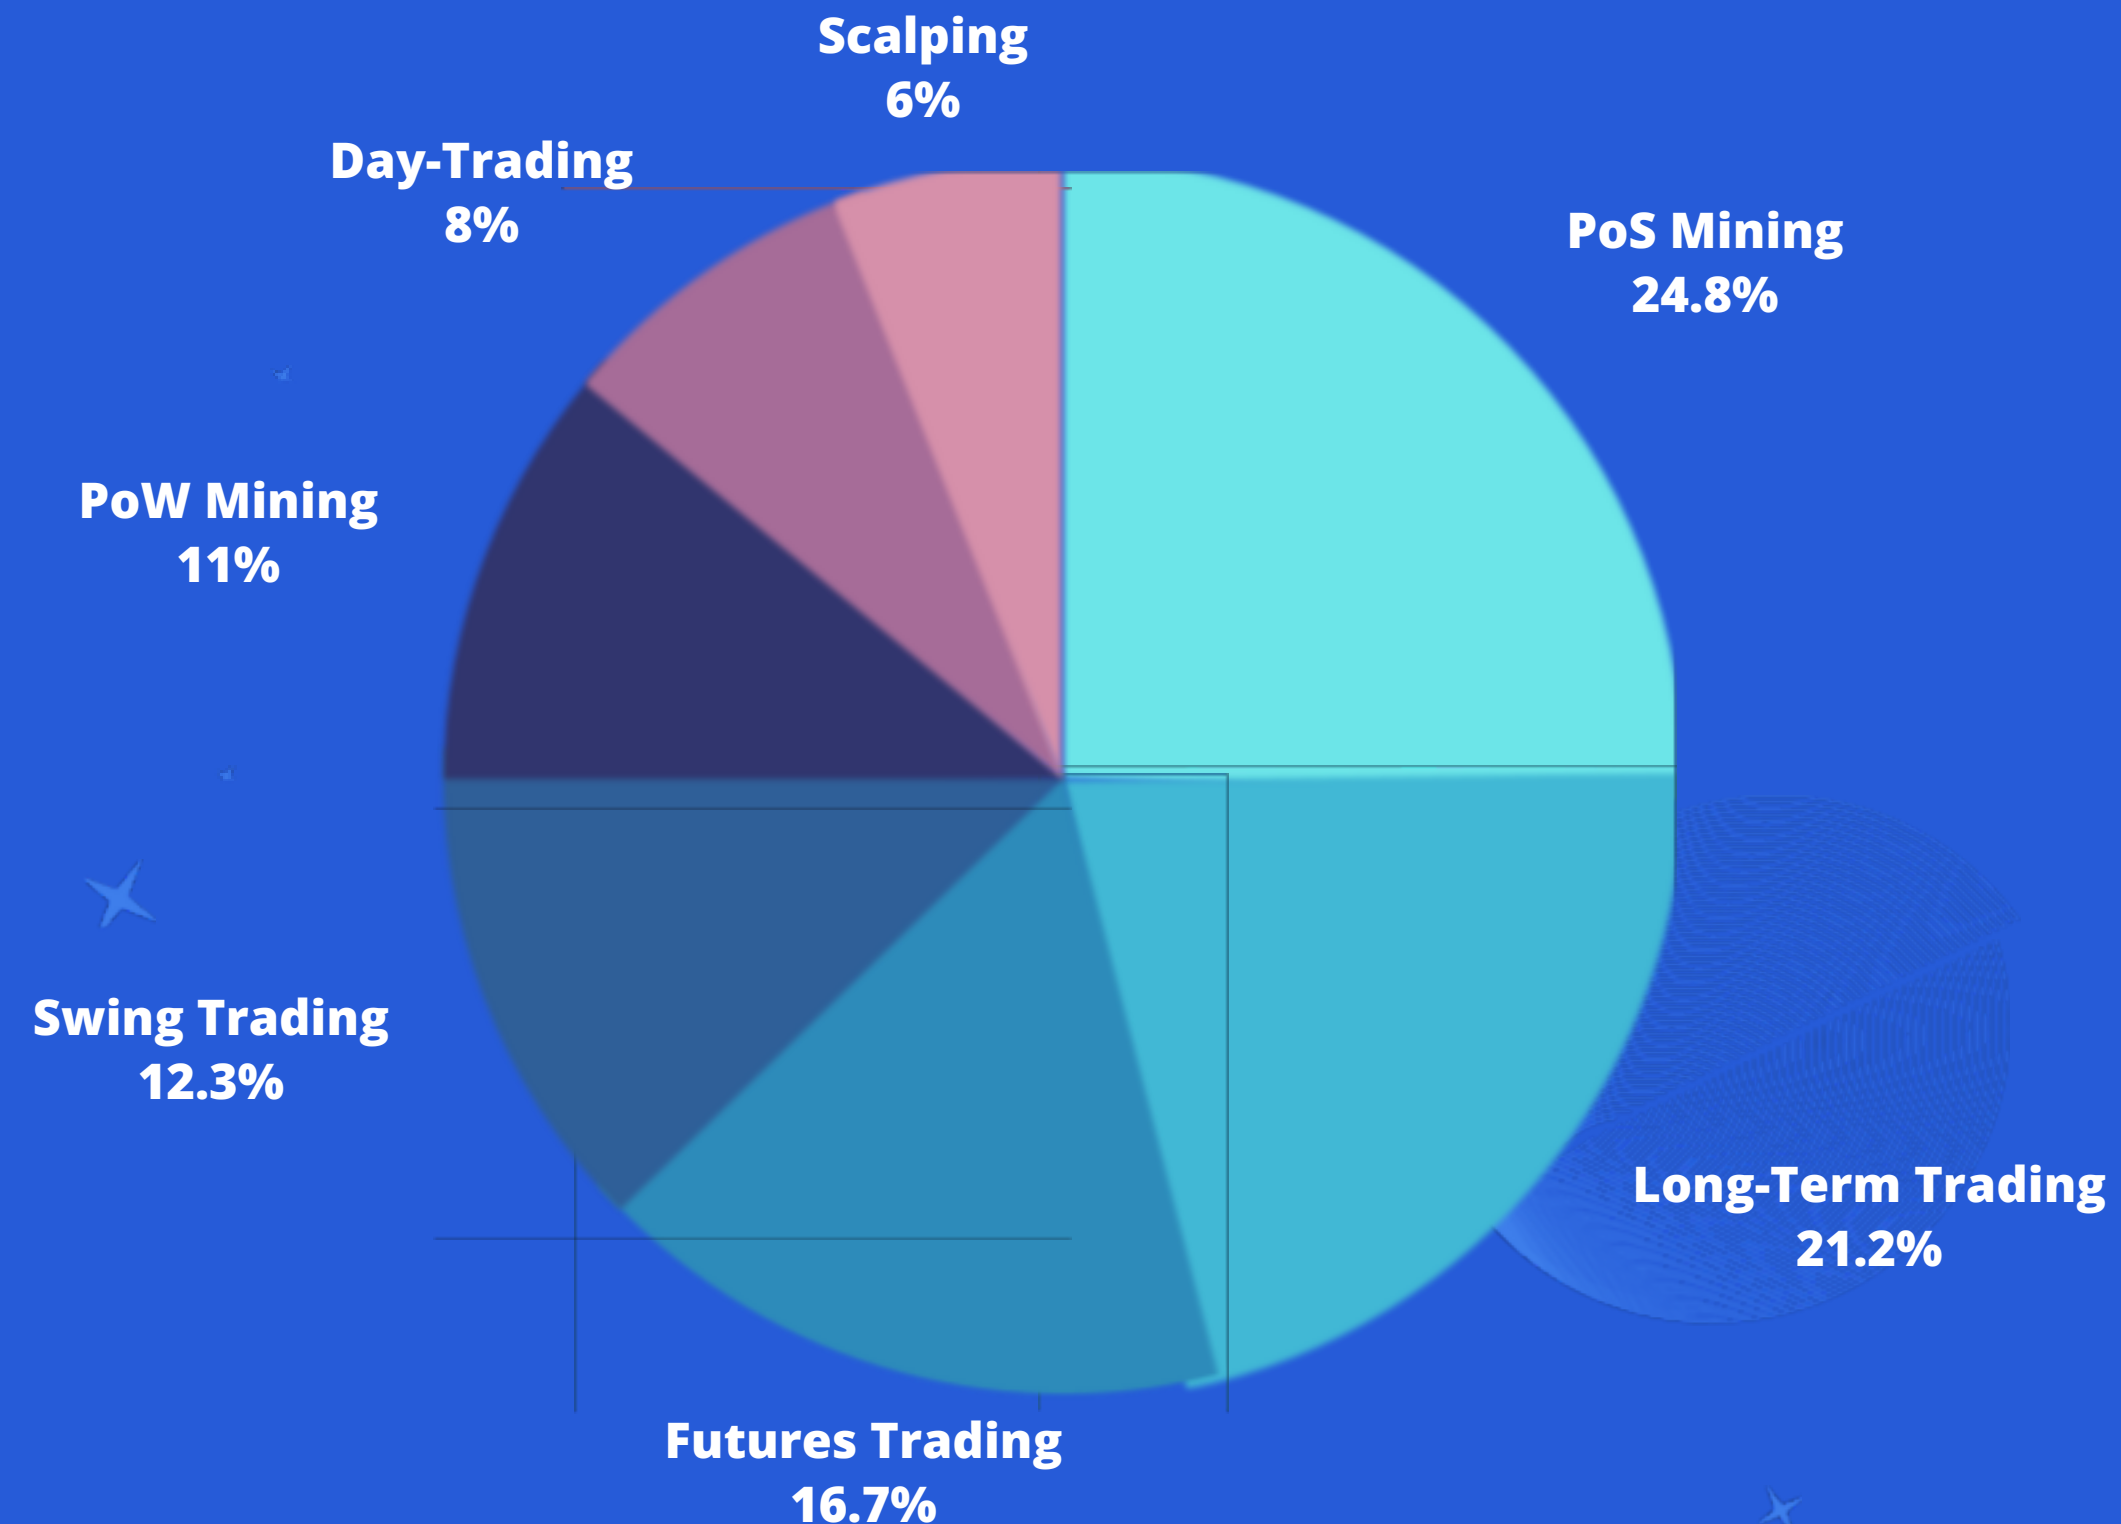

Safety

We take care of each partner's capital, thereby providing an insured investment for all Compire investors. In addition to financial assets, we are also aimed at ensuring that every client's personal data is securely stored. Absolutely anyone may become a part of the company and no longer wonder about security since we have already taken care of this.

Trading strategy

Compire divides its trading strategy into several areas to ensure our clients maximize their profits every day. We utilize a wide range of company assets, from long term trading to sliding scalping, where trades last as little as 30 seconds. We also prioritize our interactions based on monitoring market developments and emerging prospective areas. We develop these areas as needed year after year.

Affiliate program

At Compire, the affiliate program is based on linear marketing system

A Linear Marketing System is a system that allows you to create unlimited sources of income. Every affiliate who joins using your referral link creates a new line below you. The number of lines you can install is unlimited, respectively.

After registering your account, you are assigned your first career status - Beginner. Referral referral link for this status remains inactive. In order to get access to the referral link, as well as to move to the next status, you need to activate the minimum deposit in the company.

To increase the depth of each line and add levels, we have designed 9 statuses that help you move up the Compire career ladder and increase your income.

REFER A FRIEND!

INVESTING TODAY IS A SUCCESSFUL TOMORROW

Each partner you personally invite is a new source of your income!
